One of ROBLOX's main rivals is Tencent, a Chinese company. The two companies even share employees and developers, including the current admin. ROBLOX as well as Tencent are often compared to each other due to their similarities.

Rated 5 out of 5 by Anonymous from The best game ever! ROBLOX is one of the greatest games I've ever played.

It lets you make your own adventures with your friends or in single player mode! This game I'd give a 10/10 because you can build anything you want, and there are still many things to do. For example, if you're tired of building things, there are games to play on Roblox. You can be a police officer, a fire fighter, or even an architect! Roblox is a truly awesome game that needs to be experienced!

- The fact that there are so many different games to play, it's hard to keep up with all of them. There is such a variety of games which leads to me getting easily confused on what game I was previously playing and where everything was set up. That's why I am always working on the same game over and over again.

The main reason why this kind of methods work is because of how long they have been active. This hack helps hundreds of players and they can now play for free by using the Robux generator tool. In 2012, ROBLOX changed their logo. In January 2015, ROBLOX released a new website design with a few design quirks (like having your account avatar next to the gamertag that bought it in place of the previously used avatar) and having the games listed bellow on the homepage after some time for initial release followed by a notification saying they are opening more in 2015. On March 31, 2015, ROBLOX officially confirmed that they are making a game in virtual reality and that they will make a demo by the end of summer.
